Thank you to everyone who joined me at a Town Hall . I appreciate the time that you all took to come out to this year's Town Halls and tell me about the issues that are on your mind. People spoke frankly about important issues like the war in Iraq, energy independence, and their concerns about the Bush Administration. The views and concerns that were voiced help me to better represent our community in Congress, and I promise to do everything I can to address your concerns. Thank you to everyone who attended. What did you think of the Town Hall this year? What should I do differently in upcoming Town Halls ? I have uploaded the town halls presentations (PDF or Powerpoint) to my website for those who were unable to join us.
