

## **Congressional Asian Pacific American Caucus**

Established in 1994, the Congressional Asian Pacific American Caucus (CAPAC) is currently comprised of 43 Members of Congress of Asian American and Pacific Islander (AAPI) descent or who have a strong dedication to promoting the well-being and elevating the voice of the AAPI community. According to the 2010 census, AAPIs are the fastest-growing racial group, with more than 17 million AAPIs living in the United States.

After serving as CAPAC Chair for an unprecedented 7 years over four Congresses (2004-2011), I was proud to hand over the gavel to my colleague and dear friend, Congresswoman Judy Chu. It has been an honor to continue serving our community as CAPAC Chair Emeritus, Immigration Taskforce Chair, and Appropriations Taskforce Chair. To visit CAPAC's website, please [click here](#).
