

Live Town Halls Recap

Written by Mike Honda

This summer, I hosted a series of [public events](#) . I held live town halls in Campbell and Cupertino, along with office hours in Milpitas and Gilroy for you to have an opportunity to meet and speak with me.

Over 500 people attend both of the town hall events. Topics ranged from financial reform to climate science and healthcare to education. Given the number of people who submitted questions, please visit my website, where I will soon post answers to the most popular questions submitted.

During my office hours in Gilroy and Milpitas, I met one-on-one with over 35 people, listening to their thoughts about cancer research, the federal deficit, community support programs, comprehensive immigration reform, child nutrition and education reform to name a few. These field office hours were open to anyone who called and requested a meeting. My staff was also available to meet with people who dropped in for information on community resources or assistance with specific casework.

I also conducted a telephone town hall on July 27th, 2010. It was great to speak with so many people who care about our District. I recently posted answers to people's voicemails from the town hall as well as audio from the town hall, which can be [found here](#) .

These are a few of the many ways I am keeping up to date with your views. I take to heart each of your perspectives and work to make careful decisions when voting on legislation that affects your lives. I encourage those who are interested to continue to check my website for updates.

Live Town Halls Recap
