

Congressman Mike Honda
1713 Longworth HOB
Washington, DC 20515

Dear Congressman Honda:

We are writing to you today to ask that you allow our voice to be heard in the health care debate. It is the belief of Ethiopian Americans United that our health system must provide for all of America's diverse populations with affordable, high quality care, and provide security for all families in our country.

The Current President of the United States is vigorously fighting to deal head on with the health of the nation population to fix a decade long of problems deep-rooted in the bureaucracy that favors special interest groups. There is an alarming portion of minority communities that are uninsured. Many face the fear of losing their insurance coverage. Those with access to health care are not receiving quality care, as private providers and insurers have failed to meet the cultural needs of ethnic minorities.

We call upon you and other Members of the United States Congress to enact a health care reform bill that assures affordable and basic quality health care to the many Americans like our community so that medical bills and expenses are not the biggest worry when a sick child is in the Intensive Care Unit.

Congressman Honda, the community appreciates your undivided attention to the matter and wishes you the best to succeed.

Sincerely

Yohannes Ibrahim
President
